I have the honour to be, Sir,

OTTAWA, Janvier 1923.

Hon. ERNEST LAPOINTE,

Ministre de la Marine et des Pêcheries.

MONSIEUR,—J'ai l'honneur de vous soumettre le rapport du président du Bureau d'inspection des bateaux à vapeur, publié en supplément au cinquante-cinquième rapport annuel du ministère de la Marine et des Pêcheries (Direction de la Marine marchande) pour l'exercice financier 1921-22.

Votre obéissant serviteur,

Sous-ministre de la Marine et des Pêcheries.

BOARD OF STEAMBOAT INSPECTION

OTTAWA, January 11, 1923.

To the Deputy Minister of
Marine and Fisheries,
Ottawa, Ontario.

SIR,—I have the honour to submit, as follows, the annual report of the Steamboat Inspection Service, for the fiscal year ended March 31, 1922.

STAFF

In order to co-ordinate the work of inspection at a port where there were a number of inspectors stationed it was deemed advisable to have an inspector in charge of the staffs at Halifax, Toronto (including Collingwood) and Vancouver with the title of "'Senior Inspector" and this position having been established by Order in Council dated August 16, 1920, Messrs. N. A. Currie, P. W. Lyon and H. G. Robinson were subsequently appointed at Halifax, Toronto and Vancouver respectively.

Mr. Lyon having been transferred from Collingwood to Toronto the vacancy at the former port was filled by the appointment, after examination, of Mr. Robert C. Blyth by Order in Council dated June 13, 1921, Mr. Blyth being appointed Inspector of Boilers and Machinery and Hulls and Equipment.

Continuing the policy of having inspectors, where found qualified, act in the capacity of Inspector of Hulls and Equipment as well as in the capacity of Inspector of Boilers and Machinery, Mr. N. A. Currie, of Halifax, was appointed Inspector of Hulls and Equipment by Order in Council of October 22, 1921, Mr. C. E. Dalton, of St. John, by Order in Council also dated October 22, 1921, Mr. J. E. Lunan of Montreal, by Order in Council dated June 13, 1921, and Mr. J. B. Stewart, of Toronto, by Order in Council dated June 13, 1921.

BOARD MEETINGS

During the fiscal year the board gave consideration to the regulations governing the inspection of boilers and machinery of steamships with the object of revising them and also embodying therein the standard conditions laid down by the Board of Trade in agreement with the classification societies, Lloyd's, Bureau Veritas, and the British Corporation. At a final board meeting held on February 23, 1922, approval was given to a draft of regulations to be known as "Instructions as to the Inspection of Boilers and Machinery of Steamships". These regulations were approved by Order in Council dated March 10, 1922, and are now in the hands of inspectors, boiler manufacturers and others concerned.

In addition to the numerous board meetings necessary for this revision meetings were also held for the purpose of considering the qualifications of candidates for the position of Steamboat Inspector and of those Inspectors already in the service whom it was proposed to appoint in a dual capacity.

Meetings were also held for the approval of machinery, boilers and equipment for use in ships coming under inspection.

BUREAU D'INSPECTION DES BATEAUX À VAPEUR

OTTAWA, le 11 janvier 1923.

Au sous-ministre de la
Marine et des Pêcheries,
Ottawa, Ont.

MONSIEUR;—J'ai l'honneur de vous soumettre le rapport annuel du service chargé de l'inspection des bateaux à vapeur, et ce pour l'année budgétaire terminée le 31 mars 1922.

PERSONNEL

Afin de coordonner les travaux d'inspection à tout port où un certain nombre d'inspecteurs sont employés, on a jugé à propos de placer un inspecteur à la tête des personnels d'inspection à Halifax, Toronto (y compris Collingwood) et Vancouver, en lui donnant le titre d'inspecteur principal «Senior Inspector». Et, comme cette position a été créée par arrêté en Conseil rendu le 16 août 1920, MM. N. A. Currie, P. W. Lyon et H. G. Robinson ont été ultérieurement nommés à Halifax, Toronto et Vancouver, respectivement.

M. Lyon ayant été transféré de Collingwood à Toronto, la vacance créée au port de Collingwood par ce déplacement a été comblée par la nomination, à la suite d'un examen, de M. Robert C. Blyth, en vertu d'un arrêté en Conseil, rendu le 13 juin 1921, qui nommait M. Blyth inspecteur des chaudières, des machines, des coques et de l'équipement.

Dans le but de continuer à suivre la ligne de conduite adoptée, d'après laquelle, les inspecteurs des chaudières et des machines compétents, peuvent agir en qualité d'inspecteurs des coques et de l'équipement, les inspecteurs dont les noms suivent ont été nommés inspecteurs des coques et de l'équipement tout en restant inspecteurs des chaudières et machines: M. N. A. Currie d'Halifax, nommé par arrêté en Conseil rendu le 22 octobre 1921; M. C. E. Dalton de Saint-Jean, nommé par arrêté en Conseil rendu le 22 octobre 1921; M. J. E. Lunan, de Montréal, nommé par arrêté en Conseil rendu le 13 juin 1921, et M. J. B. Stewart, de Toronto, nommé par arrêté en Conseil rendu le 13 juin 1921.

ASSEMBLÉES DU BUREAU

Durant l'année budgétaire le Bureau s'est occupé des règlements concernant l'inspection des chaudières et de la machinerie des bateaux à vapeur, dans l'intention de les reviser et d'y inclure des dispositions types définies par le «Board of Trade» d'accord avec les sociétés de classification Lloyd et Bureau Veritas, ainsi qu'avec la Corporation Britannique. A une dernière assemblée tenue le 23 février 1922, on a approuvé un projet de règlements désigné «Instructions relatives à l'inspection des chaudières et de la machinerie des bateaux à vapeur». Ces règlements ont été approuvés par un arrêté en conseil rendu le 10 mars 1922, et ils se trouvent maintenant dans les mains des inspecteurs, des fabricants de chaudières et dans celles d'autres personnes qu'ils intéressent

En outre des nombreuses assemblées du Bureau, qu'exigea la révision desdits règlements, on a tenu d'autres assemblées ayant pour but de permettre de considérer les qualités exigibles des candidats à l'emploi d'inspecteurs des bateaux à vapeur, et celles des inspecteurs qui se trouvant déjà en service, pourraient être nommés de façon à remplir deux emplois en même temps.

On a aussi tenu des assemblées dans le but d'approuver: des machines, des chaudières et l'équipement devant être employés sur des navires sujets à inspection.
